CAREER OBJECTIVE

Develop systems smartly using least resources; Leverage intelligence whether artificial or human; Passionate about exploring and solving real world problems.

EDUCATIONAL QUALIFICATION

Programme	Institution	Percentage / GPA	Year of Completion
B. Tech Computer Science & Engineering	Vellore Institute of Technology	9.38/10	2028
Higher Secondary School	Sir Sivaswamy Kalalaya Sr Sec School, Chennai (CBSE)	94.4%	2024
High School	Sir Sivaswamy Kalalaya Sr Sec School, Chennai (CBSE)	94.6%	2022

DISTINCTIVE ACADEMIC ACHIEVEMENTS

- Passed with S grade (10 pointer) in Python, C/C++, Java, Data Structures and Algorithms
- Leetcode – Solved 250+ DSA problems using C++
- Neocolab – Secured 1300 super badges and 515 normal badges, placed in top 5 percentile within college.
- HackerRank – Hold Golden Badge in Python; Silver Badge in C/C++
- Codechef – Hold a rating of 1453 in Division 3. Achieved a global ranking of 1293 out of 3000 participants in a Division 3 rated programming contest.
- Competitive Programming Lead – AWS Club
- Consistent topper in academics
 - Consistently within top 10 percentile in all subjects in College
 - Secured 22k rank in IIT JEE Advanced Exams in 2024
 - Secured top 95 percentile in IIT JEE Main exams in 2024
 - Secured 3332 rank in VIT Entrance Exams (VITEEE) amongst estimated 2.3 lakh students and secured 1st category scholarship
 - Secured first position in school in 10th

INTERSHIPS

- Two-month Internship (from May 2025 to June 2025) with Plan2Execute India Pvt Ltd:**

Plan2Execute was running optimizations for Order delivery for a Billion-dollar retail furniture delivery company in USA. The optimization process was taking more than an hour for every scenario. I was part of the team that refactored the Python Code and improved the performance of the system to run every simulation in 10 mins enabling the customer to run more optimization scenarios and get more cost-effective results. This resulted in 20% SLA improvement for customer with 15% less cost.
- One-month online Internship (from March 2025 to April 2025) with Fox Trading:**

Worked on prediction-based ML projects including Diabetes Prediction, Human Action Detection, Order Volume Forecasting, and Bike Sharing Demand Prediction, gaining hands-on experience with multiple machine learning models and timely project delivery.

HACKATHONS & ACADEMIC PROJECTS

- **Randomized Question Paper Generator** (Python): Designed and implemented a Python-based system to generate unique MCQ question papers by randomly selecting questions from a database and shuffling answer options, ensuring exam integrity and minimizing copying; developed as part of the 12th Grade Computer Science curriculum and aligned with methodologies used in national-level examinations such as IIT JEE Mains.
- Hackathon Team Project – **LoRa-Based Offshore Monitoring & Communication System (OceanEye)**: Developed a low-cost, LoRa-based offshore communication and safety system for fishermen operating beyond mobile network coverage. The team implemented long-range two-way communication, GPS-based geo-fencing with multi-level boundary alerts, drift detection, and weather updates without relying on cellular or internet networks. The solution also featured an offline shore-side dashboard for live vessel tracking and was designed to be power-efficient, scalable, and robust for harsh marine environments.
- **Social Media Content Aggregator**: Proposed and conceptualized an innovative application idea that was selected by the club for development. Built a unified platform enabling users to securely log in to Facebook, Twitter, and Instagram from a single app. Implemented API-based integration to fetch and display social media feeds in one consolidated interface, focusing on usability and seamless cross-platform access.

Certifications

- **Neural Networks and Deep Learning** by Andrew Ng | DeepLearning.AI (Coursera)
- **Improving Deep Neural Networks: Hyperparameter Tuning, Regularization and Optimization** by Andrew Ng | DeepLearning.AI (Coursera)
- **Agentic AI** | IBM
- **Generative AI** | Oracle

EXTRACURRICULAR ACTIVITIES

Avid sports enthusiast with professional training in shuttle and tennis from an early age; winner of multiple competitive tournaments. Secured third position in intra college tennis tournaments.

SOFT SKILLS

- Active listener and have strong observational skills.
- Excellent communicator; fluent in English and Tamil.
- Possess strong analytical and problem-solving abilities.
- Collaborative team player with openness to feedback and suggestions.
